## BEHIND THE WALLS & UNDER THE CRAWLS TROLLEY TOUR

Finally! A tour for those who want to know, "How'd they DO that?" Cape May has one of the largest concentrations of 19th century wood frame structures (more than 600) in the United States. Look at them from a builder's perspective (remembering they did all this without nailguns, and a saw was their idea of a cordless tool). Learn how things really came together and worked on this one-hour guided trolley tour.

## NUTS & BOLTS TOUR OF THE PHYSICK ESTATE

We know you...you love to tinker with things and can easily spend hours in a hardware store, so this tour is for you! What kind of plumbing did they use and how exactly did those switches work? That's a hot water heater? Find out on a tour of the inner workings of the 1879 Emlen Physick Estate that focuses on the mechanical systems that made things run. Plumbing, heating, construction, lighting and more will be discussed during the tour.

## FISHERMAN'S WHARF TOUR

Enjoy a guided tour of Fisherman's Wharf at the Lobster House Restaurant. Learn how your seafood gets from the sea to your table and discover how Cape May has become the third largest commercial fishing port on the East Coast.

## LUNCH AT THE FLIGHT DECK DINER

Enjoy the friendly atmosphere and down-home cooking of the Flight Deck Diner at Cape May County Airport. Menu options include soup of the day or salad, hot or cold sandwich, dessert and beverage. During lunch, watch the planes fly in and out of the airport.

## CAPE MAY BREWERY TOUR & TASTING

Tour Cape May County's first micro-brewery. Meet the brewers and learn about their brewing process while enjoying four 4-ounce tastings (that's one pint)! If you find a beer that tickles your taste buds, consider taking a growler home with you.
